

Commercial LED Display AIO Series

All-In-One Integrated LED Display

Foldable all-in-one LED screen, plug-and-play for meetings and events.

Quick Assembly | High Contrast Ratio | Anti Collision | Seamless Splicing | Low Failure Rate

Parameter

Model	CHEER-AIO-178"
Pixel Pitch	1.5625mm
Encapsulation	GOB
Display resolution	2688×1080 dots
Display size	4200×1687.5mm
Screen size	4210×1807.5×25mm
Total weight	170KG (Screen) +190KG (bracket)
Color processing depth	14bit
Refresh rate	3840Hz
Contrast	6000:1
Brightness (nits)	100–600，8 levels adjustable
Horizontal/vertical viewing angles	160°/160°
Maximum (W)/average (W)	2300W/925W
Video interface	HDMI IN×4, HDMI OUT×1, USB×3, Type–C IN 4K×1
Audio interface and speakers	External audio output interfaceAudio OUT，Built–in 2×20W full–range audio
Control interface	RJ45×1，RS232×1，IR IN×1，Dual–WIFI，Bluetooth，Infrared remote control
Service life (H)	⩾100,000 Hour
Installation/maintenance method	Mobile base / Front maintenance
Authentication	3C、CE、ETL、FCC、CNAS （Ongoing）

All-in-One Integrated Design

Left and right double and three-fold, one machine for multiple purposes, new species of science and technology, unique.

Bigger Visual Impact

2688*1080 ultra-high-definition resolution, what you see is extraordinary, clear, and the screen is shocking.

Intelligent lifting, collision sensing

Supports adjusted freely, with built-in lifting collision sensing system, which will automatically stop when subjected to external force.

Easy to transport and ready to use right out of the box

The screen can be folded into the elevator, and it can be operated and used in 2 minutes out of the box.

Wide Application
